VECTRA CORE SYSTEMS LLC

SECURE CLOUD, AI & SYSTEMS INTEGRATION FOR MISSION-CRITICAL OPERATIONS

SBA-Certified SDVOSB & VOSB | Missouri SDVE | Small Business

UEI: XUXWMY61KXR6
CAGE: 21P32
Primary NAICS: 541512
SAM.gov: Active

COMPANY OVERVIEW

Vectra Core Systems LLC is a veteran-owned technology and operations company delivering secure cloud engineering, AI-enabled automation, systems integration, data solutions, and mission-aligned operational support. We help federal agencies and prime contractors modernize infrastructure, connect platforms, strengthen governance, and improve operational visibility.

CORE COMPETENCIES

- **Cloud Engineering & DevSecOps** - AWS, Azure, GCP, cloud modernization, IaC, containerization, monitoring and platform operations.
- **AI/ML & Intelligent Automation** - Amazon Bedrock, SageMaker, AI agents, workflow automation, predictive analytics and AI-enabled operations.
- **Systems Integration** - REST APIs, microservices, middleware, cross-platform integration, infrastructure modernization and secure connectivity.
- **Data Engineering & Analytics** - ETL pipelines, SQL/PostgreSQL, dashboards, KPI frameworks, data warehousing and operational reporting.
- **Cybersecurity & Governance** - NIST 800-53 familiarity, FedRAMP-aware engineering, IAM, zero-trust principles, auditability and secure configuration.
- **Program & Operational Support** - planning, risk/issue management, deliverable tracking, stakeholder reporting and remote systems support.

DIFFERENTIATORS

- **Federal-ready small business:** SBA-certified SDVOSB/VOSB and Missouri SDVE.
- **Enterprise engineering depth:** key-personnel experience supporting complex technology environments at Oracle, Amazon and UMB Financial.
- **Hands-on AI delivery:** key-personnel experience architecting production conversational AI solutions and autonomous-agent workflows using AWS AI services.
- **Cloud-to-mission integration:** combines cloud, AI, data, security and operational disciplines rather than treating them as isolated workstreams.
- **Agile teaming:** available for direct awards, competitive set-asides, subcontracting and prime-contractor teaming.

KEY PERSONNEL EXPERIENCE

Enterprise Cloud & AI Engineering: Experience spanning cloud infrastructure, AI/ML engineering, enterprise systems, automation and operational governance. Technologies include AWS, Azure, GCP, Amazon Bedrock, SageMaker, Kubernetes, Docker, Python, APIs and modern DevSecOps practices.

Important distinction: These references describe key-personnel experience and technical capability; they are not represented as Vectra corporate past performance unless performed under a Vectra contract.

NAICS / PSC ALIGNMENT

NAICS: 541512 (Primary), 541511, 541519, 541611, 541614, 488510

Website-listed PSCs: D302, R408, V111

Teaming: Prime, subcontractor and strategic teaming opportunities.

TECHNOLOGY STACK	AWS • Azure • GCP • AWS GovCloud • Bedrock • SageMaker • Python • SQL/PostgreSQL • Power BI • Tableau • REST APIs • Microservices • Docker • Kubernetes • NIST 800-53 • IAM • Zero Trust
