

VECTRA CORE SYSTEMS LLC

Subcontractor Capability Statement — Cybersecurity & Systems Engineering

SDVOSB / VOSB — Subcontracting & Teaming Ready • Grandview, MO

UEI:

XUXWMY61KXR6

CAGE: 21P32

Subcontractor Summary

Vectra Core Systems is an SBA-certified SDVOSB and small business specializing in cybersecurity architecture, secure cloud engineering, systems integration, and DevSecOps. We serve as a focused subcontractor for large task orders requiring NIST/FedRAMP expertise, secure software delivery, and mission-aligned system engineering.

Core Competencies

- Cybersecurity architecture & design (NIST SP 800-53, Zero Trust)
- Systems engineering & integration for enterprise/cloud environments
- Secure CI/CD, DevSecOps pipelines, IaC (Terraform, CloudFormation)
- Incident response, vulnerability management, and patch orchestration
- Cloud migrations with security baseline mapping (AWS, Azure, GovCloud)

Relevant Past Performance

Conversational AI systems — UMB Financial

Architected and deployed production-grade AI systems (Bedrock/SageMaker) with secure data handling and enterprise access controls.

Enterprise Infra & Ops — Large Financial/Cloud Environments

Senior engineering and secure operations roles supporting high-availability systems, automated pipelines, and security baselines.

Cloud Security & Hardening

Implemented cloud hardening, monitoring, and NIST-aligned control mappings across multi-cloud platforms.

Why Team With Vectra

- Rapid, low-overhead subcontractor ready to augment prime teams
- Proven cloud security and architectures for regulated environments
- Clearances / compliance readiness support available on request
- Experience delivering small, focused performance elements reliably
