

VECTRA CORE SYSTEMS LLC

INTEGRATED TECHNOLOGY & LOGISTICS SOLUTIONS

Service-Disabled Veteran-Owned Small Business • Grandview, Missouri • Missouri LLC filed June 1, 2026

SDVOSB

VOSB

SMALL BUSINESS

CORE COMPETENCIES

IT Systems Design & Integration

End-to-end enterprise IT design, network architecture, API connectivity & infrastructure modernization

Freight & Transportation

Full-service freight brokerage, TMS implementation, route optimization & compliance

AI-Powered Operations

Predictive demand forecasting, intelligent process automation & anomaly detection

Supply Chain Management

Strategic consulting, vendor management, procurement optimization & risk mitigation

Data Analytics & Reporting

BI dashboards, KPI frameworks, automated reporting pipelines & data warehousing

Program Management Support

Embedded PM for federal contracts — planning, risk management & deliverables tracking

RELEVANT EXPERIENCE

Amazon Bedrock / SageMaker — Conversational AI Systems

Architected and deployed 4 production-grade conversational AI systems and 1 autonomous AI agent at UMB Financial Corporation using Amazon Bedrock, SageMaker, and Amazon Q Business.

Oracle Enterprise Infrastructure

Senior engineering roles supporting large-scale enterprise infrastructure deployments and systems integration across multi-cloud environments.

Amazon — Cloud & Operations Engineering

Cloud engineering and operational systems support at Amazon, applying military-grade process discipline to high-availability infrastructure.

WHY VECTRA CORE SYSTEMS

- ▶ Combat-decorated U.S. Army veteran founder — 90% VA disability rating (SDVOSB eligible)
- ▶ MS in Big Data & Information Technology; BS in Mathematics & Statistics
- ▶ Production AI/ML experience on AWS GovCloud-compatible services
- ▶ Military precision applied to every contract — on time, on budget, no excuses
- ▶ Dual capability across IT systems AND logistics — rare integrated offering
- ▶ Cloud-native architecture: AWS, Azure, GCP, AWS GovCloud
